SONORAN DRUGS PHARMACY

P: (623) 583-2045 F: 1-(833) 605-4090 E: support@sonorandrugs.com 13260 N. 94th Dr #102, Peoria, AZ 85381

PEDIATRIC

-Diaper Rash #1 (Nystatin 10% (optional)/Cholestyramine Light 10%/Zinc Oxide 10%) Ointment

Nystatin: treats fungal infections, prevents fungus from growing.

Cholestyramine Light: irreversibly binds the bile.

Zinc Oxide: prevents/treats minor abrasions, burns, chafing, skin irritation.

-Diaper Rash #2 (Cholestyramine Light in Aquaphor)

Cholestyramine Light: irreversibly binds the bile.

Aquaphor: treats/prevents diaper rash or skin irritation, creates a barrier.

-Sore Throat Lollipops Tetracaine 0.5% or Lidocaine 0.5% or Tetracaine 0.5%/Lidocaine 0.5%

Tetracaine: numbing agent.

Lidocaine: oral anesthetic.

-All Purpose Nipple Ointment (Mupirocin 2%/Betamethasone 0.1%/Miconazole 2%)

Mupirocin: treats infected skin lesions.

Betamethasone: decreases inflammation.

Miconazole: treats and prevents fungus.

DERMATOLOGY

-Morning Anti-Aging Cream (Hyaluronic Acid 1%/Snap-8 10%/Alpha Lipoic Acid 2%)

Hyaluronic Acid: reduces the appearance of wrinkles and lines, improves wound healing, reduces scarring, soothes redness and dermatitis, makes skin appear firmer, keeps your skin moisturized, helps with soft tissue growth, prompts your body to make more collagen and elastin.

Snap-8: relaxes facial muscles- eliminates crow's feet, frown lines, and smooths out other fine lines.

Alpha Lipoic Acid: reduces puffiness, restores skin's natural glow, improves dry skin, evens out skin tone.

-Rosacea Gel (Ivermectin 2%/Niacinamide 4%/Metronidazole 2%)

Ivermectin: treat lesions of rosacea, reduces signs of inflammation.

Niacinamide: helps visibly minimize enlarged pores, tighten lax pores, improves uneven skin tone, softens fine lines and wrinkles, diminishes dullness, and strengthens a weakened surface.

Metronidazole: treats inflammatory lesions.

-Rosacea Cream (Ketoconazole 2%/Permethrin 5%)

Ketoconazole: used to treat fungal infections.

Permethrin: Permethrin 5% cream is superior to metronidazole 0.75% gel and placebo in decreasing Demodex folliculorum, and is as effective as metronidazole 0.75% gel in treating erythema and papules.

-Under Eye Brightening Gel (Caffeine 3%/Vitamin K 1%/Vitamin E 1%/Ascorbyl Palmitate 3%)

Caffeine: protects skin from damage by free radicals, stimulates blood flow/improves circulation which brightens face, constricts blood vessels which reduces fluid retention, soothes inflammation/redness, reduces stretch marks and cellulite.

Vitamin E: nourishes and protects skin from free radicals.

Ascorbyl Palmitate: protects against free radical damage, repairs the effect of UV exposure, reduces melanin production, incases collagen production.

DERMATOLOGY – ACNE

-Clindamycin Phosphate 2%/Niacinamide 4%/Benzoyl Peroxide 5% Cream

Clindamycin Phosphate: reduces the number of bacteria that causes acne, has anti-inflammatory effects.

Niacinamide: helps visibly minimize enlarged pores, tighten lax pores, improves uneven skin tone, softens fine lines and wrinkles, diminishes dullness, and strengthens a weakened surface.

Benzoyl Peroxide: reduces the amount of acne-causing bacteria and causes the skin to dry and peel.
